

You are cordially invited to attend a peer-to-peer presentation.

Diabetes Technology Breakthroughs: Next Gen CGM

Presented by:
MIHAIL ZILBERMINT, MD,

Hosted by:
Sue Ann Martin 4109053735
sueann.martin@dexcom.com

Program Details

Thursday, November 16, 2023
6:30 PM (GMT-04:00) Eastern Daylight Time
Ruth's Chris Steak House
106 Crown Park Avenue, Gaithersburg, Maryland 20878

Agenda

- Overview of the category of integrated continuous glucose monitoring (iCGM)
- Differences between Libre 2, 3, and G7 (app, integration with automated insulin delivery systems, and cloud connectivity)
- Dexcom G6 and G7 vs. Libre 2 and 3 (Real-Time CGM (RT-CGM) vs. Intermittently-Scanned CGM (IS-CGM))
- Published accuracy comparisons of Libre 2,3 and Dexcom G6 and G7
- Randomized controlled trials: clinical data and Professional Society Guidelines/SOC demonstrating use of RT-CGM in improvement of A1C

BRIEF SAFETY STATEMENT

Failure to use the Dexcom G7 Continuous Glucose Monitoring System and its components according to the instructions for use provided with your device and available at <https://www.dexcom.com/safety-information> and to properly consider all indications, contraindications, warnings, precautions, and cautions in those instructions for use may result in your patient missing a severe hypoglycemia (low blood glucose) or hyperglycemia (high blood glucose) occurrence and/or making a treatment decision that may result in injury. If your patient's glucose alerts and readings from the G7 Pro do not match symptoms, use a blood glucose meter to make diabetes treatment decisions. Seek medical advice and attention when appropriate, including for any medical emergency.

Per company compliance guidelines, one alcoholic beverage (beer or wine only) will be provided by the company at the program. Attendees may purchase additional alcoholic drinks at their own expense if they desire.
